

MAYORAL MESSAGE OF SUPPORT

2025

MATRIC CLASS

● Cllr. Molefe Morutse

Mayor of Ditsobotla Local Municipality

It gives me great pleasure, on behalf of the Ditsobotla Local Municipality, to convey a message of encouragement and support to all our Grade 12 learners who are writing their final examinations.

This is a defining moment in your educational journey — the culmination of twelve years of hard work, dedication, and perseverance. The knowledge and discipline you have gained will serve as a strong foundation for your future endeavors.

As the municipality, we recognize the vital role that education plays in shaping the destiny of our youth and our nation. We therefore applaud all learners, educators, parents, and guardians for the tireless effort and commitment shown throughout the year, despite the challenges faced.

To our learners — remain focused, confident, and calm. Manage your time wisely, believe in your abilities, and give each paper your very best. Remember, success belongs to those who are determined and consistent.

Your success is not only personal but also a victory for our community and a beacon of hope for Ditsobotla's future. We look forward to celebrating outstanding results that reflect your hard work and resilience.

On behalf of the Council and the people of Ditsobotla, I wish you all the best of luck in your final examinations. May your efforts yield excellent results and open doors to endless opportunities.

"Education is the most powerful weapon which you can use to change the world." — Nelson Mandela
